“Create a sense of calm with blue fabrics. Blue reminds us of the sky and ocean, and nature tends to have a soothing effect. Choose softer blues and navy for a timeless look, or more intense shades, like sapphire and teal, for an on-trend vibe.”

increase visibility for aging eyes

“Help residents with reduced eyesight by using a warm red color palette. Bold red and gold colors are easier for aging eyes to distinguish over pastel hues, like light blues and greens. Additionally, creating color contrast throughout your space helps differentiate between major pieces of furniture, walls, drapes and floors.”
