Panacea® 1000	14 - 15

Bariatric Beds

Panacea® 6300	16 - 17
---------------	----------------

Thousands of caregivers across the country trust Panacea products to offer superior resident comfort and well-being.

Designed with your residents in mind and loved by residents and caregivers alike, Panacea beds are relied upon every day in thousands of Senior Living communities across the country. You can count on our products to deliver extraordinary performance and outstanding comfort, all at an amazing value.

Panacea offers a comprehensive line of beds designed to suit every resident need. From adjustable-height low beds for safety and proper positioning to bariatric beds for your larger residents, our mission is to provide you with the equipment you need to help provide care to your residents.

What's more, Direct Supply's logistics experts can coordinate delivery, assembly and installation of any size order of beds and arrange removal your old beds. Thanks to our years of serving only Senior Living, we understand your unique environment and make sure our logistics services minimize disruption to your staff, residents and daily operations.

Created with all the features you and your residents require at a great value:

■ Reliable Comfort

Rest assured that Panacea beds will help you provide the superior quality of care your residents deserve, thanks to exceptional support and consistent performance over time. All of our 5-function beds feature one-touch Comfort Chair positioning to help you improve resident comfort when seated, while the Auto Contour feature simultaneously controls the head and knee sections to help reduce shearing and friction on the resident's skin during positioning.

■ Simplified Design

We've engineered Panacea beds with durability, safety and comfort in mind. With bumpers to help eliminate wall damage and safety lock systems for caregivers, it has never been easier for you and your staff to provide great care.

■ Affordable Pricing

With Panacea beds and mattresses, you'll never have to compromise on quality or usability – you can have it all for less. Plus, we will help you consolidate purchases and take advantage of our flexible financing and payment terms.

Panacea® 3500 Adjustable-Height Low Bed

Adjustable length, width and height for exceptional versatility at a great price.

The Panacea 3500's integrated, tool-free width and length adjustment allows you to size the bed to almost any resident's needs quickly and easily; plus, with a 600-pound weight capacity, it can be a great solution for smaller-size bariatric residents.

Its pendant features a Comfort Chair button to help keep the resident's hips and shoulders aligned when in the seated position, and synchronized motors keep the bed level during raised height travel. The Panacea 3500 features Auto Contour, which simultaneously controls the head and knee sections to help minimize shearing, and an optional safety lock secures the casters at the foot end of the bed with one step.

Optional trapeze and staff control are available for easier resident repositioning and to allow the bed to transition smoothly to Trendelenburg and Reverse Trendelenburg. The bed features a backlit hand pendant that helps make nighttime adjustments easy for residents and staff.

Plus, preset Safety Pause minimizes risk for crushing overbed tables and other equipment that may be under the bed; this setting also provides a preset transfer height to aid in egress and ingress. Meets IEC 60601-2-58 safety standards.

Developed more than a decade ago, the Panacea mattress was created in response to growing customer needs for a quality, pressure-redistribution mattress at an affordable price. Since we weren't able to find the ideal mattress for Senior Living, we set about creating one based on input from customers like you. Over the years, we've added to that line, creating more mattresses to support resident well-being, comfort and dignity, all at a great value.

We've designed our line of Panacea mattress options to accommodate your diverse resident population. With a focus on creating mattresses that meet your needs of pressure redistribution, comfort, quality and durability, we offer a wide selection of surfaces, including foam and air mattresses along with air overlays.
